

B. Tech. 8th semester Project guideline

Academic Year – 2023-24

Subject: Project (01CT1801)

Sr no.	Activity	Expected assessment criteria	Timeline
1	Define project definition	Define project definition and the group (in case of group project). Students have to get approval for the Project definition and group from the course instructor.	Before 20/1/2024
2	Project review 1	Content, Literature survey, Problem statement, Objectives, Plan of work, Module wise expected outcomes	10/2/2024
3	Project review 2	Content, Methodology/implementation/SRS (Software Requirement Specification), Results and result analysis	9/3/2024
4	Approval from your guide	Content, Results and result analysis, Future scope, Limitation, Conclusion	6/4/2024
5	Report submission	Prepare the first draft, verify, get signature and submit to the respective guide	15/4/2024
		Submit the final project report and final viva (offline)	25/4/2024 26/4/2024 27/4/2024

Important note:

- All Project reviews will be offline. Review 2 will be online only for those students who are doing internships in industry. Project assessment will be done as per the shared rubric. Project report must be submitted as per the provided project report guideline. Students will be able to submit the report and come for the final viva after getting the approval from their guide mentioned in sr. no. 4 in above table.
- Students have to be present on the campus who are not doing internships in industry.
- Students who are finding/trying to get internships in industry or Industry defined project are having a time till 17th January, 2024. If you are unable to find the internship or Industry defined project till 17th January, 2024 then students have to do Faculty defined project on campus.
